

SELF-CONTAINED MISTING FAN

Portable misting fan with water tank and filtration system provides the best advantage of mobility and convenience.

P/N: FTC-P-18-5

Features

- 18" Oscillating, Variable Speed Fan With Stainless Steel Cage
- Adjustable Height Fan Easily Moves ~59" to ~70" at center
- Ruby Misting Nozzles Last Longer Than Metal Nozzles
- Four Misting Cycle Modes
- Built-in Water Tank Holds About 16 Gallons
- Can Run Continuously While Connected To External Water Source*
- Built-In Water Filter Via Hose Connection

Safety

- Low Water Level Switch: turns off pump when water tank is too low
- Float Valve: shuts off water source to avoid tank overflow
- TEFC Pump Motor: enclosed motor reduces chance of electric shock
- TEFC Fan Motor: enclosed motor reduces chance of electric shock

Application

- Designed for temporary indoor/outdoor cooling and landscaping.
- Suitable for backyard BBQ party, outdoor events, exhibition, garden restaurant, and sports activities.

Control panel with misting cycle mode buttons & fan variable-speed knob.

* Pump draws water from tank only. Tank must be filled via built-in hose connection to make use of the built-in filter. Detailed product features and specifications are listed on back.

Features

- Variable-speed, 90° oscillating fan
- Adjustable height fan head: ~59" to ~70" at center
- Fan shroud focuses air flow
- Ruby nozzles (last longer than metal nozzles)
- Four misting cycle modes
 - Mist always on
 - 15s mist on / 20s mist off
 - 25s mist on / 20s mist off
 - 40s mist on / 40s mist off
- Integrated water tank
 - Low water level safety switch
 - Mechanical water overflow safety switch
 - Built-in water filter with garden hose inlet
 - High Pressure Relief valve
- Can run while attached to a water source
 - Overfill switch maintains tank water level
- Enclosed fan & pump motors reduce electric shock
- External recirculation path prevents pump overheat
- Integrated cart handles
- Rear rubber tread tires
- Front locking caster wheel
- Bumper

Specifications

- Part Number: FTC-P-18-5
- Dimensions: 28" D x 22" W x ~69" to ~80" H (adjustable height)
- Weight: 112 lbs.
- Electrical: 110V, 60Hz, 12.5 Amps, 1375 Watts
- Fan Blade Size: 18"
- Fan Head Size: 20.5"
- Coverage Area: ~300 sq. ft.
- Maximum Run Time: 4 hrs on tank / all day with hose attached
- Tank Size: 15.85 gal.
- Output: 0.18 gpm
- Nozzles: 5 each with 0.008"
- Water Filter: 1 each built-in
- Fan RPM: max 1750
- System Water Pressure: 1000 psi
- Noise Level: ~50 dB
- Temperature Drop: ~25° F
- Color: Beige
- Warranty: 1 year manufacturer's warranty
